Please describe

Please list some Website URL's you like:	Please list some Website URL's you DO NOT LIKE

Where do you want the navigation (side, top, bottom)?

Do you prefer a "busy" site with lots of information and links packed on the page, or a simple site with a clean look?
Busy Simple

Do you have color preferences?

Do you want a search box? Yes No Will you want statistics? Yes No

What would you like the statistics track? (Stats cannot tell you the name or email of visitors unless you specifically ask for and are granted that information – typical is screen resolution, operating system, IP address, country of origin)?

Content

We will need your text and photos to provide content to the pages. Please send finished, proofread copy, preferably in digital format (in email, word or plain text files on CD, Zip or email). Written content is important for search engines to find your site. Please provide content clearly labeled as to which page you'd like the information placed on.

Will you need copywriting assistance?

Yes No

I would like Custom error Pages (instead of getting a generic 404 Page Not Found, you will get one that redirects visitors back to your site (if hosting compatible). These can be even quite fun reflecting the personality of the site owner though their function is to keep you on the site even if a page moves.

Hosting, Domain & Email Services

We recommend to our clients web hosting services tailored to their specific needs and can assist with finding and setting up hosting. We recommend hosting on your local dial-up ISP or FREE hosted sites ONLY if your page is very simple and basic since they are usually not well-prepared to meet specialized business site hosting needs. We can recommend a Web host service for you in your price range.

If you are likely to need a lot of storage and bandwidth due to a lot of images, we can recommend hosts that give you lots of space at a reasonable cost. If you would like some suggestions for hosting providers, check out our site at www.c-omalley.com/hosting-domains.htm and click on the various links to compare hosting providers. We also provide hosting with 24/7 phone support and 99.9% guaranteed uptime. Your hosting and domain are not included in your web design costs; they are an ongoing yearly charge. If your requirements are related to bandwidth, you may require a virtual dedicated server so your increased bandwidth doesn't impact others on the host machine. This can be fairly expensive, but is the best solution if you have huge mailing lists that go out often.

Have you purchased a domain name? Yes No

If not, would you like us to obtain one for you? Yes No

Preferred domain extension: (www.yourname.ORG) .org .com .net .info .biz Country of origin (.ca = Canada for example) .name .sr (Seniors) .us (USA) .ws (website) .md (healthcare) .cd (music industry) .cc (similar to com) .am (radio station) Note: domains other than .com/.net/.org are usually more expensive to purchase. If a domain is taken, it may still be available on a secondary market at additional cost. Should we pursue this if your first domain choice is not available?

Yes No

Do you currently have hosting or know where you would like the site hosted? Yes No

Would you like us to recommend hosting? Yes No

About how much are you willing to spend per month?

How much traffic do you expect per day? 1-10 visitors 10-100 visitors More than 100 visitors

Do you have any ideas regarding your need for bandwidth? Storage space?

Any features that are important to you? (speed, downtime, telephone tech support, spam control, specific programs, etc.)?

Will you want email accounts with your domain names? Yes No If so, how many?

Will you want autoresponders on those email accounts? Yes No Spam filters? Yes No

Will you want those accounts to feed into your current email account, or be "POP" mail – set up in your mail program or online access? Forward to current email POP Mail Online Access or Webmail

We will require a Credit card to obtain a domain name or hosting for you. Credit Card information cannot be sent through email, it must be provided over the phone or by postal mail (email is NOT secure).

features will you need? Yes No Which features?

Will you want mailing list capability (this may or may not be included in a shopping cart)? Yes No

Response Forms

Sometimes you might want interested persons to contact you. A reply-type form uses different kinds of programming. We can add a response form to one of your pages. This is done from the server with PHP, CDO or CDONTS. Which you can use is dependent upon the server's capability. **Note:** You can set up sites that use the response form as an order form, but it will not include a secure server and secure order pick-up, so you cannot take credit card or any sensitive information in this way. This may be fine for requesting literature, information, etc. We charge extra to set up a secure ordering system.

I would like a form: Yes No

Maintenance

Website creation does not include future updates. If you are interested in a maintenance package, let us know. We have several inexpensive packages (as well as pay-as-you-go updating) available that can keep your website fresh, interesting and up to date. Many clients will occasionally add a page now and then as their business grows so that their web presence keeps pace with their brick-and-mortar business. Will you be interested in maintenance services? (we give a price break for signing up for 1 year of maintenance services – standard pay-as-you go services are at our regular rate).

I think I would like a maintenance package and would like to talk to you about what is available?
