Please describe

Please list some Website URL's you like:	Please list some Website URL's you DO NOT LIKE
--	--

Where do you want the navigation? Top Side Bottom Right (check all that apply)

Do you prefer a "busy" site with lots of information and links packed on the page, or a simple site with a clean look?

Busy Simple Somewhere in the middle Leave room to add items later

I prefer sites that fit on all screens even if there's blank areas I want to use every available space

Do you have color preferences?

Do you want a search box? Yes No Will you want statistics? Yes No

What would you like the statistics track? (Stats cannot tell you the name or email of visitors unless you specifically ask for and are granted that information – typical is screen resolution, operating system, IP address, country of origin)?

Collecting Information

Will you want to collect information from visitors to your site? Yes No

Such as?

Will this information be Emailed to you Collected in a database for later use

Do you desire to send newsletters to visitors? Yes No Do you want a "favicon" (custom icon)? Yes No

If you intend to collect information from visitors, law requires you provide a Privacy Disclosure statement somewhere on your site. (make sure you check that as one of your pages)

Content

We will need your text and photos to provide content to the pages. Please send finished, proofread copy, preferably in digital format (in email, word or plain text files on CD, Zip or email). Written content is important for search engines to find your site. Please provide content clearly labeled as to which page you'd like the information placed on.

Will you need copywriting assistance?

Yes No

I would like Custom error Pages (instead of getting a generic 404 Page Not Found, you will get one that redirects visitors back to your site (if hosting compatible). These can be even quite fun reflecting the personality of the site owner though their function is to keep you on the site even if a page moves.

Additional Features you may be interested in using on your site:

- I-Frame content (include content from other sites in your site)
- Pop-up windows
- Weblog (a blog is a way to keep content fresh easily)
- Login/Password protected areas
- RSS Feed (broadcast information to worldwide feeds for distribution)
- Web cams (real time video)
- Photo galleries
- Flash masthead, banner or splash page
- Flash Pages (this is the ONLY way you can really protect your photographs and images from theft)

- Privacy statement (should be included in all websites per the law)
- Masked photos (decorative element added to photos to make them stand out – such as a soft fade effect or cutout effect)
- Webcast/Video information (video is either downloaded or streaming. Streaming requires special server capabilities)

Database and Interactivity needed

If your project requires any interactivity that will need a back end database, please describe your needs specifically as possible below. Examples of database functionality are log in areas where users can populate information and record storage/manipulation/retrieval.

Explain the type of functionality you'll need. Be as detailed as possible

Hosting, Domain & Email Services

We recommend to our clients web hosting services tailored to their specific needs and can assist with finding and setting up hosting. We recommend hosting on your local dial-up ISP or FREE hosted sites ONLY if your page is very simple and basic since they are usually not well-prepared to meet specialized business site hosting needs. We can recommend a Web host service for you in your price range. Your hosting and domain are not included in your web design costs; they are an ongoing yearly charge.

Hosting: If you have special needs or requirements are related to bandwidth or storage, you may require a virtual dedicated server so your increased bandwidth doesn't impact others on the host machine. Generally we recommend shared hosting for most clients and the provider and features needed will depend on what you plan to do with your website.

Do you currently have hosting or know where you would like the site hosted? Yes No

If you have hosting, do you have log-in and ftp information to access the hosting? Yes No

If not, can you obtain this information? Yes No Explain any special circumstances:

Would you like us to obtain hosting for you? Yes No

About how much are you willing to spend per month? Don't know

How much traffic do you expect per day? 1-10 visitors 10-100 visitors More than 100 visitors

Do you have any ideas regarding your need for bandwidth? Storage space?

Any features that are important to you? (speed, downtime, telephone tech support, spam control, specific programs, etc.)?

Domain name:

Have you purchased a domain name? Yes No Name?

Do you have the log-in information to your registrar? Yes No Can you obtain this? Yes No

If not, would you like us to obtain a domain name for you? Yes No

If so, first choice 2nd choice

Preferred domain extension: (www.yourname.ORG) .org .com .net .info .biz Country of origin (.ca = Canada for example) .name .sr (Seniors) .us (USA) .ws (website) .md (healthcare) .cd (music industry) .cc (similar to com) .am (radio station) Note: domains other than .com/.net/.org are usually more expensive to purchase. If a domain is taken, it may still be available on a secondary market at additional cost.

Should we pursue this if your first domain choice is not available? Yes No

Shall we obtain any derivatives of that name? org net biz com us if available? Yes No

Will you want email accounts with your domain names? Yes No If so, how many?

Will you want auto-responders on those email accounts? Yes No Spam filters? Yes No

Will you want those accounts to feed into your current email account, or be "POP" mail – set up in your mail program or online access? Forward to current email POP Mail Online Access or Webmail

We will require a Credit card on file to obtain a domain name and/or hosting for you as well as any required software that pertains to your site. Credit Card information cannot be sent through email, it must be provided over the phone or by postal mail (email is NOT secure).

Will you want mailing list capability (this may or may not be included in a shopping cart)? Yes No

Contact & Response Forms

Sometimes you might want interested persons to contact you. A reply-type form uses different kinds of programming. We can add a response form to one of your pages. This is done from the server with PHP, CDO or CDONTS. Which you can use is dependent upon the server's capability. **Note:** You can set up sites that use the response form as an order form, but it will not include a secure server and secure order pick-up, so you cannot take credit card or any sensitive information in this way. This may be fine for requesting literature, information, etc. We charge extra to set up a secure ordering system.

I would like a form: Yes No

Other features you might want on your website. If you think you might want them, check the box. It's ok if you do not know what something is, don't check it.

Popular small script features:

- News feeds
- RSS
- Printer friendly pages
- PDF pages
- Scroll boxes
- Popup Windows
- Links to other sites' databases
- Page redirect
- Watermark background
- Hide email from spammers
- No explorer Image bar
- Static Map
- Bookmarks
- Copyright

- Small feedback form
- PNG replacer (for PNG images)
- No Right Click
- Colored scrollbars in IE5 only
- Static background in IE only
- Marquee
- Counter
- No Right Click (makes it more difficult to steal images)
- Sound files (auto play) MP3 Midi WAV MPEG
- Video (you MUST be the copyright owner to use MP3's on your site)
- Browser detection & redirect
- Java applet (ie: shimmering lake)
- Translation link
- Text Rollovers (text changes color on click)
- Something else?

Flash is an interactive and very classy way of presenting images and content on your website. It is also fairly expensive. It is used to draw attention to important items or just make your website stand out from the crowd. It is not particularly search engine friendly so we do not recommend doing an entire site in Flash.

Flash & Splash I would like to include:

- Flash Movies (a secure way to copy protect movies)
- Flash Splash Pages (fancy introductions)
- Flash Banners (to draw attention to important links or areas of your site)
- Flash Games or Interactives
- Onsite People (*people that appear to be alive on your screen talking to you*)
- Disjointed rollovers (*mouse over a picture, and the text changes is an example*)
- Please describe anything else you need:

Alternative Advertising

Would you be interested in printed materials to match your website? Yes No

Your website on CD as a promotional tool or backup? Yes No Promotional tool Backup

Basic Search Engine Optimization services? Yes No (this includes title tags, basic submissions – it does NOT include keyword searches or optimizing, submissions to many search engines, meta tags or XML site maps)

Copyright

Do you have copyright or license to your current site? Copyright License Don't know Neither

Maintenance

Website creation does not include future updates. If you are interested in a maintenance package, let us know. We have several inexpensive packages (as well as pay-as-you-go updating) available that can keep your website fresh, interesting and up to date. Many clients will occasionally add a page now and then as their business grows so that their web presence keeps pace with their brick-and-mortar business. Will you be interested in maintenance services? (we have discounted rates for signing up for 1 year of maintenance services – standard pay-as-you go services are at our regular rate).

I think I would like a maintenance package and would like to talk to you about what is available?

Yes No

Is there anything else you'd like us to know, want to add or would like to include that we haven't covered above? Please describe what you desire:
